

Ehsan Ullah

Senior Frontend Developer React-Next-JavaScript-TypeScript
I-10, Islamabad

PROFILE SUMMARY

Enthusiastic self-taught Frontend Developer with over four years of experience in designing and developing high-quality, scalable, and maintainable web and mobile applications. Skilled in React.js, Next.js, and TypeScript, with ability in both front-end developments. Experienced in building top-tier products for startups, SMEs, and enterprise clients, delivering seamless user experiences and high-performance solutions. Strong problem-solving abilities and a commitment to staying up to date with the latest industry trends ensure innovative development. Thrives in both collaborative team settings and independent projects, efficiently driving solutions from concept to completion.

SKILLS HIGHLIGHTS

- Web Development
- UI/UX Design Implementation
- Agile Project Management
- Front-End Development
- API Development & Integration
- Version Control (Git, GitHub)
- CMS Development
- Performance Optimization
- Responsive Web Design
- Cross-Browser Compatibility
- Scalable Architecture

TECHNICAL SKILLS & EXPERTIES

Front-End Skills | React.js/Next.js | HTML/HTML5 | CSS/CSS3 | JavaScript/TypeScript/ECMAScript | Flexbox | SCSS | Sass | Bootstrap | Tailwind | Material-UI | Ant Design

Frameworks | Next.js

CMS | Strapi CMS

Libraries | React.js | jQuery.js

Web Services | Heroku | Netlify

Version Control System | GitHub | GitLab

CORE COMPETENCIES

- Designing and developing highly responsive, user-friendly websites and web applications that enhance user experience and functionality.
- Demonstrating ability in front-end technologies to build dynamic and visually engaging interfaces.
- Implementing security measures to protect applications and user data.
- Utilizing version control systems like Git and GitHub, along with CI/CD workflows, to streamline development and deployment processes.
- Perfecting application speed, scalability, and efficiency through performance enhancements and best coding practices.
- Collaborating effectively in Agile environments with cross-functional teams to drive project success and continuous improvement.
- Applying analytical thinking and critical thinking skills to troubleshoot and resolve complex technical challenges efficiently.
- Designing, developing, and implementing APIs to enable seamless data exchange and system integration.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

Aug 2023 – Current

Own Agency-OA, Netherlands, Remote

- Lead a team of 4 frontend developers, mentoring in React, Next.js, and performance optimization best practices.
- Contributed to Agile workflows, including sprint planning, stand-ups, and retrospectives, ensuring adaptive development.
- Built and kept dynamic web applications using React.js, Next.js and Tailwind CSS for best user experience.
- Designed and implemented responsive, visually appealing front-end interfaces, improving performance and usability.
- Collaborated with UI/UX designers to translate design concepts into user-friendly features, enhancing interaction and engagement.
- Utilized Tailwind CSS to create efficient, scalable, and consistent styling, improving maintainability and aesthetics.
- Launched high-traffic web applications that received positive user feedback and drove increased engagement.

Frontend Developer

Mar 2023 – Apr 2024

IKONIC Solution, Islamabad, Pakistan

- Collaborated with UI/UX designers to transform design concepts into functional, visually appealing, and intuitive responsive interfaces.
- Debugged and optimized code to resolve complex technical challenges, improving performance on Cross-browser Compatible.
- Implemented push notification functionality, increasing user retention and engagement.
- Successfully launched the Web application, resulting in a significant boost in user interaction and positive feedback.

- Developed and deployed a dynamic web application using React and Firebase, ensuring seamless functionality and enhanced user experience.
- Actively took part in Agile development processes, contributing to sprint planning, code reviews, and continuous integration to ensure the prompt delivery of high-quality software.

Frontend Developer

June 2022 – Feb 2023

Merik Solution, Islamabad, Pakistan

- Worked closely with development teams and product managers to ideate and implement software solutions.
- Designed and developed client-side and server-side architectures, ensuring scalability and efficiency.
- Built and managed well-functioning web applications while Integrated effective APIs.
- Developed and implemented intuitive front-end interfaces using React.js and Next.js, adhering to best design practices.
- Built high-performance and scalable services for the healthcare industry using React.js.
- Implemented automated tests, including unit tests, integration tests, functional tests, and automated UI tests.
- Configured and managed frontend infrastructure across various projects, enhancing system performance and scalability.
- Conducted software testing to ensure efficiency, reliability, and seamless performance while debugging and upgrading as needed.

Web Developer

Jan 2021 – Jun 2022

Todd's Group, Abbottabad, Pakistan

- Developed and supported code while conducting UX consultations through testing procedures.
- Completed internal company training courses, including MySQL security best practices, Express.js, React – The Complete Guide, and Next.js.
- Created new user-facing features and built reusable code and libraries for future use.
- Ensured the technical feasibility of UI/UX designs while improving applications for maximum speed and scalability.
- Collaborated with team members and stakeholders to achieve the best possible results.
- Developed single-page applications (SPAs) using HTML, CSS, and JavaScript, ensuring smooth front-end functionality.

EDUCATION

Bachelor of Science in Software Engineering

Sep 2017 – Sep 2021

COMSATS University Islamabad
